

Sprint #3 Report

iCook

weCook

07/24/23

Actions to stop doing:

- Writing freehand code instead of writing unit test driven code

Actions to start doing:

- Be ready with demo before starting zoom with TA

Actions to keep doing:

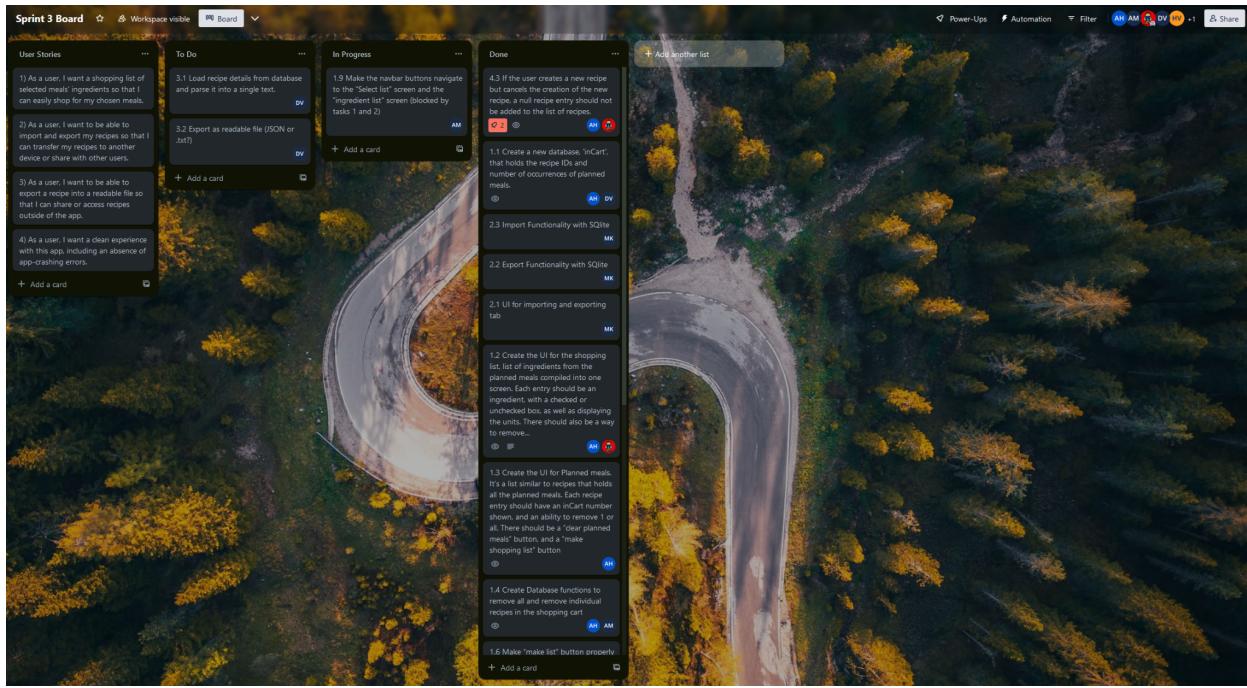

- commenting code & communicating when we're working
- working on individual branches & merging (mostly functional) code to main
- Creating Modular Functionality
- Meeting deadlines

Work completed/not completed:

- User Story 3.1: (8 points) As a user, I want a shopping list of selected meals' ingredients so that I can easily shop for my chosen meals. (completed)
- User Story 3.2: (5 points) As a user, I want to be able to import and export my recipes so that I can transfer my recipes to another device or share with other users. (completed)
- User Story 3.3: (3 Points) As a user, I want to be able to export a recipe into a readable file so that I can share or access recipes outside of the app.
 - Not completed as of 7/22/2023 - 3:21pm (intending to complete by Sunday)
- User Story 3.4 (3 Points) As a user, I want a clean experience with this app, including an absence of app-crashing errors. (completed)

Work completion rate:

- User stories completed: 4 (16 points)
- Estimated Ideal Work Hours completed: 45
- Sprint Duration: 6 days
- Average working hours / day: 7.5
- Average stories / day: 0.66

Burn up Chart:
